Please provide a brief overview of any teaching, research, and/or service activities/experiences that you feel could contribute to the Faculty Senate.

I see it a great honor to represent UH Libraries to serve in UH Faculty Senate. I am very interested in university services, programs and faculty governance and affairs. I have had rich professional, library and university services experience in advancing the issues of well-being, policy development, diversity and inclusion initiatives, strategic planning, higher education advisory program, open access and open source, social commitment and public good and fund raising through my services as Councilor-at-Large of American Library Association and other roles on multiple local, state and national level library association committees and task forces. I have published numerous peer-reviewed articles and provided multiple presentations on various topics relating to information organization and discovery, digital systems, open access, open source, linked data, digital preservation policies and programs, staff competences, training and orientation. I currently serve as the co-Principal Investigator for the IMLS National Leadership Project Grant. I had the honor to be selected to be a fellow of the Association of Research Libraries (ARL) Leadership Fellows Program and a fellow of ARL Leadership and Career Development Program. I believe my rich service and research experience will contribute to UH Faculty Senate and benefit programs and services at UH Libraries.
